Work Experience

Producer & User Experience Developer – Skeletal Sync, Sept 2025 – Current

- Lead UX design and implementation of gameplay systems, UI flows, and menus in Godot Engine
- Drive features from concept to release, aligning player experience goals with technical execution
- Conduct usability testing and player research to refine onboarding, readability, and engagement
- Facilitate Scrum meetings, manage sprint goals, and maintain development backlogs
- Collaborate with a 13-person team of designers, developers, and artists to deliver cohesive gameplay systems
- Manage web content marketing, ensuring up to date information on our team website and itch.io

Building Manager, UW-Stout Student Centers, November 2025 – Present

- Oversee operations, safety, and guest experience across campus event facilities
- Support event execution by coordinating with A/V, custodial, and reservations teams
- Assist clients and guests with logistics, technology, and facility needs
- Enforce policies and respond to emergency and time-sensitive situations

User Experience Researcher, Kintsugi 3D, May 2025 – Current

- Conduct UX research with cultural heritage stakeholders to define user needs and system requirements
- Design wireframes, prototypes, and user flows using Figma and Miro
- Develop interactive features in Godot, focusing on 3D model viewing and usability constraints
- Rapidly prototype and iterate to validate concepts and improve user experience

Executive Producer, Blue Devil Productions, January 2024 – January 2026

- Manage a 9-person team across event, marketing, and design functions, overseeing 45+ events annually.
- Developed meeting agendas, timelines, and productions plans, ensuring smooth event and marketing execution.
- Oversee applying for, purchasing, and balancing for an annual budget of over \$180,000.
- Directed marketing efforts including social media, promotional design, and campaign coordination
- Develop and maintain work relationships with university staff and external partners to secure resources and approvals.

Music Director, Blue Devil Productions, January 2023 – December 2023

- Managed artist booking, contracts, and communications across multiple channels
- Managed day-of show operations including hospitality, staff coordination, and venue management.
- Dictated event execution and coordinated with technical teams to ensure high-quality event experiences.
- Guided promotional efforts by approving and shaping event marketing materials

Involvement

Event Coordinator, People's Organization of Network Gaming, September 2022 – Current

- Plan large scale 48-hour LAN gaming events for 200+ participants 4 times annually.
- Handle overhead event logistics including space reservations, meeting with administrative staff, event set-up, and execution
