- Leadership
- Adobe Suite
- Agile Development
- Figma

Work Experience

Producer & User Experience Developer – Skeletal Sync, Sept 2025 – Current

- Manage twice weekly scrum meetings, removing blockers and ensure sprint goals are being met
- Work with Design Director to create sprint goals based on game design and experience goals
- Develop various mechanics in the Godot game engine such as environment hazards, game cycle, and menu functionality, collaborating with other developers and artists to ensure a cohesive experience
- Conduct UX research to ensure a positive play experience at our goal difficulty (ensuring game mechanics are understood, type/icons are understandable, etc)
- Manage web content marketing, ensuring up to date information on our team website and itch.io where our game is housed for download

User Experience Researcher, Kintsugi 3D, May 2025 – Current

- Work closely with cultural heritage institution stakeholders to conduct User Experience research to develop software that aligns with user's needs and expectations
- Design and develop full stack functionality of requested features, specifically revolving around local model manipulation and viewing constraints. Software includes Miro storyboarding, Figma wireframing, and the Godot game engine to develop the dynamic 3D model viewer.

Executive Producer, Blue Devil Productions, January 2024 – January 2026

- Manage a 9-person team with various positions such as entertainment management, marketing, design, etc.
- Create agendas and facilitate various group meetings.
- Oversee applying for, purchasing, and balancing for an annual budget of over \$180,000.
- Develop and maintain work relationships with professional staff in the UW-Stout Memorial Student Center and other campus administration.

Music Director, Blue Devil Productions, January 2023 – December 2023

- Contact, communicate with, and contract musicians to perform on UW-Stout's campus via email, in-person networking, and phone communication.
- Perform day of show duties such as providing hospitality, welcoming artists to the venue, working with technology crews, and serving as lead event manager during events.

Involvement

Event Coordinator, People's Organization of Network Gaming, September 2022 – Current

- Plan large scale LAN events on UW-Stout's Campus with duties including reserving spaces, meeting with event space administrative staff, running games and tournaments for attendees to participate in, and ordering necessary items with a given budget.
